

Full job description

Job Summary

Northwest Water Systems is seeking a dedicated and detail-oriented part time Meter Reader to join our team. The Meter Reader will be responsible for accurately reading utility meters, ensuring data accuracy, and providing exceptional service to our customers. This role requires the ability to work independently in the field. This could easily lead to a full-time role, if desired, as we are a growing company. A company vehicle, phone, computer and credit card will be provided.

Responsibilities

- Conduct regular readings of utility meters to ensure accurate billing and data collection.
- Document readings and report any discrepancies or issues encountered during meter readings.
- Be able to work independently and in a timely manner with little to no supervision
- Ability to work independently in various weather conditions while maintaining a positive attitude.

Qualifications

- Valid WDL
- Ability to read and write
- You should not be afraid of critters (this includes dogs) and getting dirty
- Strong communication skills, both verbal and written.

Job Type: Part-time

Pay: \$22.00 - \$25.00 per hour

Expected hours: 22 per week
